**Our ref:** NPWD230530  
**Your ref:** BT2410346BT  
**Date:** 02 November 2023

Dear Mrs Richardson,

**Waste Batteries and Accumulators Regulations 2009 (as amended)  
Notification of grant of approval of a waste battery treatment operator**

We have considered your application for approval as a waste battery treatment operator under The Waste Batteries and Accumulators Regulations 2009 (as amended) (*'the Regulations'*).

**Waste Industrial and Automotive Batteries**

We hereby grant approval to **Electrical Waste Recycling Group Limited** to operate as an approved battery treatment operator for waste industrial and automotive batteries. Your operator approval number is **BT2410346BT**.

Your approval covers the following site and categories only:

Site name and address	Battery category	Individual site approval number	Limit (tonnes)
<b>Electrical Waste Recycling Group Limited</b> School Lane, Kirkheaton, Huddersfield, West Yorkshire, HD5 0JS	Automotive & industrial	<b>BS2410348BS</b>	150 tonnes or less

Your approval is subject to the conditions specified in Part 2 of Schedule 4 to the Regulations. Your approval applies only to the named operator for the specified approved site only.

You have given an undertaking (paragraph 4 of regulation 65) in respect of a tonnage limit, which is indicated for each site in the table above, and consequently you have paid the lower application charge. If you subsequently exceed this tonnage limit, you will be liable to pay an additional charge. You must pay the additional charge within 28 days of exceeding the threshold.

Your approval is valid from 01 January 2024 and ends on 31 December 2024, unless it is otherwise suspended or cancelled.

The approval allows you to treat and recycle waste industrial and automotive batteries which you accept at this site for treatment and recycling.

**Suspension and cancellation of approval**

We may suspend or cancel your approval where it appears to us that you have failed, or are likely to fail, to comply with any of the conditions of approval. Suspension or cancellation may extend to one or more of your approved sites or may apply to your whole approval. Your whole approval will cease to have effect if you cease to be a battery treatment operator, or you request that your approval should be cancelled.

You must notify us immediately, in writing, of any changes to the details submitted with your application.

This approval does not replace any other environmental authorisation that you may have for the site. You must continue to comply with these and other relevant legislation.

Please contact **Millie Bainbridge – Wilkinson** on 020 847 476 08 if you have any queries.

Yours sincerely,

**Farah Hussain**  
**Senior Technical Officer**  
**Producer Responsibility Regulatory Services**
